

How to install the Franchising program.

A. Install the Iframe on your website (see installation manual hereafter)

B. [Register](#) on CollectionCar.com

C. [Contact us](#) to participate in the commission program. Please provide us with following info in order to install your admin so you can track your commissions and payments.

- URL of the website
- URL of the page where the classifieds section is installed
- your email address
- The email address of your Paypal account (may be the same as previous)

You can open your admin in your [manager](#) on CollectionCar.com. See "Affiliates" in menu.

Installation manual - Guidelines For Webmasters

This manual is for making a classic car classifieds section on a website.

It uses an Iframe which connects a frame on a page directly to the database of collectioncar.com. The link has no program capabilities.

Proceed as following:

1. Make a link "classifieds" (or similar, according to the used language) in the menu of the website.
2. This link leads to a page where code should be implemented in html
3. The space where the classifieds section will appear on your page must have width of minimum 650px. (Best is 760 px for 2x5 pictures in header and maximum format of pictures).
Min height is 2300 px.
4. Please adapt the following criteria in the provided code:

1. URL of the host site
2. Desired language
3. Continent of the host site (*optional - not mandatory*)
4. Country of the host site (*optional - not mandatory*)
5. State/Region if applicable (*optional - not mandatory*)
6. if you like to show all makes and models or make a filter. (*optional - not mandatory*)
7. Width and length of frame

Example of code:

```
<!--Begin CODE -->
<iframe
src="http://collectioncar.com/listing_frame.php?site=www.example.com&lang=en&continent=Europe&country=Belgium&fixed_make=202&fixed_model=392" scrolling="yes" frameborder="0"
style="border:none; overflow:hidden; width:700px; height:2300px; overflow-x: hidden; overflow-y: visible;" allowTransparency="true"></iframe>
<!--END CODE -->
```

This code has to be adapted with the following:

1. URL of host site

URL in code is "www.example.com". Please replace with URL of hostsite.

In this way we can track how many registrations we have from your website.

2. Desired language

Standard code is English (lang=en).

To change language: replace language part of the code with the following:

For example: change "&lang=en" into "&lang=es" (this way the content will be in Spanish)

We have the content translated to 21 languages, you can select from the list below:

en = (English)

es = (Espagnol/Spanish)

ar = (Arabic)

ru = (Russian)

ja = (Japanese)

pt = (Portugues/Portugal)

it = (Italiano)

de = (Deutsch)

fr = (French/Francais)

nl = (Dutch/Nederlands)

sv = (Svenska/Swedish)

fi = (Suomi/Finnish)

pl = (Polski/Polish)

hu = (Magyar/Hungarian)

no = (Norway)

bg = (Bulgarian)

tr = (Turkce/Turkish)

zh = (Chinese)

hi = (Hindi)

da = (Danish)

ro = (Roman./Romanian)

If your website is made in different languages, make a page for each language and insert an adapted code for each language.

3. Adapt continent of hostsite *(optional - not mandatory)*

Specify the continent of host website - choose one of the following options

&continent=Africa

&continent=Asia

&continent=Europe

&continent=North America

&continent=South America

&continent=Oceania

Example:

Change "&continent=Europe" into "&continent=Oceania"

(The selected continent is shown as link. When selected, only content of specified continent will be shown)

If you don't like a geographical limit on the page f.e. because you have an international website, simply don't put any geographical variable in the code.

See example

```
<!--Begin CODE -->
<iframe src="http://collectioncar.com/listing_frame.php?site=example.com&lang=en"
scrolling="yes" frameborder="0" style="border:none; overflow:hidden; width:650px; height:2300px;
overflow-x: hidden; overflow-y: visible;" allowTransparency="true"></iframe>
<!--END CODE -->
```

4. Adapt country of hostsite *(optional - not mandatory)*

If location of your site can be defined by country alone, for example: Europe - Belgium:

```
<!--Begin CODE -->
<iframe
src="http://collectioncar.com/listing_frame.php?site=example.com&lang=en&continent=Europe&co
untry=Belgium" scrolling="yes" frameborder="0" style="border:none; overflow:hidden; width:650px;
height:2300px; overflow-x: hidden; overflow-y: visible;" allowTransparency="true"></iframe>
<!--END CODE -->
```

!!Take in mind that the country must correspond with the selected continent!!

See list of countries at end of manual.

5. Adapt country AND state of hostsite *(optional - not mandatory)*

If location of your site can be defined by country AND state, f.e. North America - United States - New Jersey:

```
<!--Begin CODE -->
<iframe
src="http://collectioncar.com/listing_frame.php?site=example.com&lang=en&continent=North
America&country=United States&state=New Jersey" scrolling="yes" frameborder="0"
style="border:none; overflow:hidden; width:650px; height:2300px; overflow-x: hidden; overflow-y:
visible;" allowTransparency="true"></iframe>
<!--END CODE -->
```

!!Take in mind that the country, state and continent must correspond with each other!!

If you don't like a geographical limit on the page f.e. because you have an international website, simply don't put any geographical variable in the code:

See list of counties and states at the end of manual.

6. Show all or filter by make or model *(optional - not mandatory)*

If you like to filter and limit the classifieds to a certain make like f.e “Ford” (or a make AND model of a make like for example “Ford” and “Mustang”), please apply the following code:

```
<!--Begin CODE -->
<iframe
src="http://collectioncar.com/listing_frame.php?site=www.example.com&lang=en&continent=Europe&country=Belgium&fixed_make=202&fixed_model=392" scrolling="yes" frameborder="0"
style="border:none; overflow:hidden; width:700px; height:2300px; overflow-x: hidden; overflow-y:
visible;" allowTransparency="true"></iframe>
<!--END CODE -->
```

“fixed_make=202” stands for a specific make and “fixed_model=392” for a specific model.
Please contact us for the code of the desired make or model.

Email to office@collectioncar.com and ask for the code for the make (or model) you want to display on your classifieds section.

7. Width and length of IFrame.

Width. To change the width of the Iframe: you can specify any width from 650px to 900px or more (but not less than 650px).

Change “width:650px” into “width:760px” (this way your Iframe will fit on 760px width)

Length is 2300px.
